

The **Pedal Pick-Up™** by **Main Street Pedicabs, Inc.**

The Pedal Pick-Up™ is an innovative and cost effective new way for communities and business to provide cargo transport without the fuel cost!

The Main Street Pedal Pick-Up™ is based upon our award winning pedicab frame. With a 1/4" ABS load-carrying plastic bed, aluminum side post and railings, removable gate and 12' square foot capacity, the Pedal Pick-up™ is more than a replacement for light and medium duty hauling and transport. With a completely customizable cargo area, the Pedal Pick-Up™ is at home on a job site, for museums, malls, stadiums and office complexes. The Pedal Pick-up™ can operate indoors without noise or pollution. Reliable engineering and superior workmanship are the hallmarks of the Main Street Pedicab. The Pedal Pick-Up™ has a strong, TIG-welded 4130 Steel Alloy frame with a black powdercoat finish & heavy duty steel axles. Braking is provided by a revolutionary hydraulic 8-3/4" rear disk brake and supported by a front V brake. All Main Street Pedicabs™ use a Shimano 21-speed drivetrain with a rear axle differential and indexed, grip-shifting.

Braking is provided by a revolutionary hydraulic 8-3/4" rear disk brake and supported by a front V brake. A rear differential allows for independent wheel speeds and better maneuverability.

The Pedal Pick-Up™ provides 12' square foot capacity and features a 1/4" ABS load-carrying plastic bed.
