

Main Street Pedicabs

presents

Lights, Camera, Pedicab!

Main Street Pedicabs is the largest manufacturer of pedicabs in the US and the market leader in innovation worldwide. We manufacture a variety of 3-wheeled pedal-powered vehicles or pedicabs that are perfect for placement in your next film, show or commercial. All models have 21 speed gearing, hydraulic brakes, and a rear differential. Advertising on a product placed pedicab is an excellent way to generate added revenue from other corporations.

Classic Pedicab™

This is our most popular model worldwide. The Classic Pedicab™ comes with a complete 12 volt lighting system including turn signals, and running and braking lights.

Broadway Pedicab™

Still with the fiberglass body, the Broadway Pedicab™ provides an extra 5.5" of seating room and standard triple clamp fork for a more luxurious 3 passenger ride.

Boardwalk Pedicab™

Features include 11" side steps for easy entry, heavy duty triple clamp fork and a 48" seat for comfort with an optional storage area underneath. The Boardwalk doesn't include the fiberglass body, integrated lighting, or rear shock absorbers.

Pedal Pick-Up™

The Pedal Pick-Up™ is based upon our award winning pedicab frame. Features a 1/4" ABS load-carrying plastic bed, aluminum side post and railings, removable gate and 12' sq.ft. capacity. Available with custom rear cargo area.

Electric Assist

Flip a handlebar mounted switch and go! All models are available in electric assist versions.
